PROFILE

Professional International humanitarian and development-focused personnel with over 10 years of work experience on large-scale, multi-partner, donor-funded, and supporting projects in Nigeria. Experienced in project management, Climate Smart Agriculture, WaSH with a successful track record in Monitoring, Evaluation, Accountability, Research, and Learning (MEARL), Data management including quality assurance/assessment/auditing, program/project management, and delivering professional reports within the International Development and Non-Governmental Organisations (INGOs) sector. Proficient in qualitative and quantitative analytics skills (including real-time data management), database development for managing surveys, and data analytics/infographics. Experienced working with Migrated, Displaced, Trafficked, Marginalized, and General Populations and communities that have experienced conflict. Personnel equipped with excellent communication and interpersonal skills, an enthusiastic team player with extensive technical knowledge of organizational growth support.

SKILLS

- Proficient in **database programming** using **Epi data**, **Epi info**, and **CSPRO**.
- Proficient in the use of **Open Data Kit (ODK)** for **mobile data collection (CSEntry, Commcare, Kobocollect)**.
- High-level proficiency in the use of **Microsoft Office 365 suite (Outlook, Excel, PowerPoint, Word, Access)** and **Microsoft Teams**
- Proficient in **data management (analysis, validation, triangulation)** and **data visualization tools**.
- Experienced in the use of **NVivo** and **SPSS** for **qualitative and quantitative data mining and analysis**.
- Experienced in the use of **ArcGIS Software** for **Geospatial Analysis**.
- Proficient in **programs and project management**
- **Proficient in remote hands-on mentoring**.
- **Experienced in the design of web-based assessments for training/performance appraisals**.

RELEVANT WORKING EXPERIENCE

1. **COUNTRY DEPUTY HEAD OF PROGRAMS/MEAL TEAM LEAD** (January 2024 - Date)
Jesuit Refugee Service (JRS) - Nigeria
No 13 Al'Fayyum Street, Zone 3, Wuse. FCT - Abuja.
Donors: EU/ECHO, UNHCR, GIZ, The Basque Government, Bibliothèques Sans Frontières, Development and Peace - Caritas Canada, Latter Day Saints and Charities, Manos Unidas, Irish Jesuit International/Misean Cara, CEI, JRS-USA, ALBOAN MIEZA, GHR Foundation

PROJECT THEMATIC AREAS AND POPULATION

- Education in Emergencies (including Girl Child Education), Conflict resolution, Reconciliation and Peace-Building, Conflict Resolution, Women Economic Empowerment, Natural Resource

Management (Water and Sanitation Hygiene – WASH), Livelihoods (Entrepreneurship and Climate-Smart Agriculture), Gender and Gender Mainstreaming, Protection (including GBV, Legal, and MHPSS support), Conflict Related Sexual Violence (CRSV), Sexual and Gender Based Violence (SGBV), Awareness Raising against GBV and irregular migrations (Counter-trafficking).

- Displaced Populations (IDPs and Returnees), Asylum seekers and Refugee Population (Migrated) affected by conflicts or armed violence, Trafficked Returnee Population, and Host Community

KEY ACHIEVEMENTS

- Provide leadership and oversight to all project implementation across the field offices in Nigeria.
- Work with project directors, technical unit heads/team leaders and program leaders to ensure effective and efficient program and project implementation.
- Lead financial oversight for the programme, ensuring efficient, transparent, and accountable use of programme resources in compliance with organisation and donor standards.
- Oversee budget planning, financial tracking, and forecasting across programme components, and partners, ensuring alignment with approved workplans and adherence to budget limits.
- Collaborate with national finance team to maintain accurate budgets, forecasts and cost control across all programme activities.
- Lead monthly program unit/project director meetings to ensure improved coordination and program/project implementation.
- Coordinate the development of program/project costed workplans (in alignment with budget, KPIs, and result framework), ensuring timely delivery of project milestones and outputs.
- Responsible for the development and updating of risk analysis and management for all project and locations including monitoring early warning systems.
- Technical and Research Lead: The Impact of Oil Contamination in Okoro Utip and Eteo Communities, Rivers and Akwa Ibom States. https://devp.org/wp-content/uploads/2025/11/Report_Oil_contamination_Nigeria.pdf
- Review and approval of Terms of Reference for conducting and implementing project deliverables.
- Lead in development and supporting result-based management systems for all programs and projects.
- Oversee organisation's program portfolio, development of project tools, financial management (forecasting), approvals for operational expenses, and grants management
- Development of Terms of Reference (ToR) for the engagement/contracting of external consultants and contractors, review and facilitating interview sessions.
- Manage economic growth programs for projects across Nigeria in thematic areas including agriculture development, public infrastructure, women's economic empowerment; inclusive financial systems (Cash-Based Interventions, Conditional Cash Transfers, Financial inclusion, VSLA/SILC); education through livelihoods support.
- Lead the tender committee for the review of submissions by contractors/vendors for the delivery of goods and services across all project implementation sites.
- Lead in the knowledge management ensuring effective documentation storage and access for all team members.
- Lead the collaboration with the communication/advocacy unit to improve program visibility for programs/projects through routine publications.
- Take lead in the development of Data Collection Tools (DCTs) providing appropriate methodological approaches and Needs Assessment (Rapid, Thematic and Multisectoral).

- Lead project inception/start-up meetings and provide program/project insight for all engaged program/project staff
- Provide accountability and manage donor-contractual relationships, and consultant/vendor contractual relationships
- Serve as safeguarding focal point for programs/projects across field implementation locations.
- Successfully led WASH programming in rural, semi-urban, and urban settings, improving access to safe water and sanitation for over 20,000 school and community beneficiaries across in Monguno and Dikwa LGAs of Borno State within the emergency/humanitarian and development contexts.
- Participated in building strong partnerships with government agencies, INGOs, National NGOs, community structures, and private sector actors, resulting in improved coordination and resource sharing.
- Lead in strategy and collaboration for peace building efforts in violence-prone and affected communities through Women's Economic Empowerment and Gender Equality using Climate-Resilient Agriculture initiatives and Community Engagement in Northern Nigeria.
- Led in the reconciliation and livelihood research for farmer-herder conflict affected communities in Northeast Nigeria to support peace-building initiative and programming.
- Provided mentorship and technical oversight to programmes teams during proposal development to ensure increased access, improved implementation quality and compliance with global standards.
- Served as technical lead for the design and construction of sustainable water supply systems (routine boreholes, solarized schemes, hand-pump boreholes), achieving over 85% functionality across completed infrastructure.
- Participate in WASH assessments (comprehensive water safety, functionality, water quality – Physicochemical and Bacteriological, Water availability through Geophysical Survey, and feasibility), contributing to the development of risk-informed WASH plans in climate-vulnerable communities across Northeast, Northwest, Northcentral, and South-South regions in Nigeria.
- Applied systems-thinking to map institutional, financial, technical, and community-level bottlenecks, informing the redesign of WASH interventions for greater impact and scalability.
- Enhanced service delivery through the adoption of real-time monitoring tools (Commcare, Kobo collect), improving decision-making and accountability.
- Facilitated multi-level stakeholder dialogues through Context Analysis (Key Informant Interviews and Focus Group Discussions) that resulted in improved governance frameworks and clearer roles between relevant stakeholders.
- Ensure functionality of sanitation facilities and effective hygiene promotion efforts for beneficiaries in schools and communities.
- Ensure compliance of staff to travel/movement security procedures and routinely manage and update the program's risk register and taking actions, as required.
- Operationalised market-based and systems-strengthening approaches, increasing access to affordable WASH products and services through local entrepreneurs within project locations.
- Lead Multi-Sectoral Needs Assessments (MSNA), Rapid Needs Assessment (RNA) to integrated WASH–Health–Education models linking WASH infrastructure, behaviour change, and institutional strengthening, leading to measurable improvements in health and school attendance.
- Provide advisory for improved water quality across project locations through treatment and storage procedures.

- Served as technical lead for the rehabilitation of non-functional water infrastructures across Northeast (Borno, Adamawa, Taraba States), and North Central (Abuja) and Northwest (Zamfara State) Nigeria regions.
- Take lead in facilitating/conducting lessons learned workshops and routine project review meetings with program units to ensure that programs are implemented in line with defined standards and Monitoring, Evaluation, and Reporting (MER). This helps in identifying project implementation gaps and providing improved strategic programmatic directions to bridge identified gaps.
- Development of evidence based, routine project implementation reports (monthly, quarterly, semi-annual, and annual) for all projects in line with donor requirements.
- Take lead in project evaluations (Baseline and Midline) and develop Terms of Reference/provide guidance for independent external endline evaluations.
- Take lead in Data Quality Assessments/Auditing (DQA) and Program Quality Assurance (PQA) across project implementation sites and documentation to ensure compliance to standard guidelines.
- Experienced and provided support in stakeholder engagement as part of project inception and onboarding processes, providing guidance and eligibility criteria for beneficiary targeting and selection in line with pre-assessments and recommendations.
- Lead in CRSV and SGBV data management, especially within adolescents and young people.
- Experienced in grants management/proposal development in response to Requests/Calls for proposals.
- Provide guidance/capacity strengthening for field office staff to ensure improved project implementation strategies and professional development.

2. **COUNTRY MONITORING AND EVALUATION SPECIALIST** (February 2022 – December 2023)

Jesuit Refugee Service (JRS) - Nigeria

No 13 Al'Fayyum Street, Zone 3, Wuse. FCT - Abuja.

Donors: EU/ECHO, BPRM, UNHCR, LDS, Caritas Canada, Basque Government, Global Solidarity Fund, Misesan Cara – IJM, CEI, JRS-USA, MIEZA - ALBOAN, JM-UK, GHR Foundation

PROJECT THEMATIC AREAS AND POPULATION

- Education in Emergencies (including Girl Child Education), Conflict resolution, Reconciliation and Peace-Building, Conflict Resolution, Natural Resource Management (Water and Sanitation Hygiene – WASH), Livelihoods (Entrepreneurship and Climate-Smart Agriculture), Gender and Gender Mainstreaming, Protection (including GBV, Legal, and MHPSS support), Conflict Related Sexual Violence (CRSV), Sexual and Gender Based Violence (SGBV), Health and Awareness Raising against GBV and irregular migrations (Counter-trafficking).
- Displaced Populations (IDPs and Returnees), Asylum seekers and Refugee Population (Migrated) affected by conflicts or armed violence, Trafficked Returnee Population, and Host Community

KEY ACHIEVEMENTS

- Led the design, implementation, and oversight of Monitoring, Evaluation, Accountability, and Learning (MEAL) systems across multi-sector humanitarian and development programmes.
- Developed and operationalised results frameworks, including logframes, theories of change, KPIs, outcome and impact indicators, proxy indicators, and measurement methodologies aligned with donor requirements.

- Designed and rolled out project and organisational MEAL tools, including MEAL Guides, M&E Plans, Indicator Performance Tracking Tools (IPTTs), and reporting dashboards.
- Led and facilitated baseline, midline, and endline evaluations, including development of TORs, management of external evaluators, and synthesis of findings into donor-ready evaluation reports.
- Designed and implemented Data Quality Assessment (DQA) frameworks, conducting routine data validation, verification, and audits to ensure data integrity and compliance with donor standards.
- Provided technical leadership and oversight to M&E staff and field teams, including database management, data quality assurance, and performance monitoring across implementation sites.
- Conducted routine spot monitoring and assessment missions across Adamawa, Borno, Zamfara, and Taraba States to validate data, assess implementation quality, and support adaptive management.
- Led MEAL-informed strategy and cross-sector collaboration for peacebuilding programmes in violence-affected communities, integrating women's economic empowerment, gender equality, climate-resilient agriculture, and community engagement across Northern Nigeria.
- Led evidence-driven strategy, learning, and partner coordination for peacebuilding initiatives in conflict-affected communities, applying gender-responsive and climate-resilient approaches to women's economic empowerment and community engagement in Northern Nigeria.
- Provided MEAL leadership for peacebuilding and social cohesion programmes, generating and applying evidence on women's economic empowerment, gender equality, and climate-resilient agriculture to inform adaptive programming in violence-prone communities.
- Designed and applied MEAL frameworks and indicators to support peacebuilding programmes integrating gender equality, women's economic empowerment, and climate-resilient agriculture, strengthening learning and accountability in conflict-affected communities.
- Led MEAL-informed peacebuilding strategies integrating WEE, gender equality, climate-resilient agriculture, and community engagement in violence-affected communities in Northern Nigeria.
- Led MEAL capacity strengthening, developing capacity-building plans and delivering training for staff, partners, and stakeholders on MEL systems, data collection, and results-based management.
- Reviewed and quality-assured all data collection tools, evaluation products, and project design/inception documents to ensure methodological rigor and consistency.
- Led accountability and learning processes, ensuring systematic use of evidence to inform programme adaptation, decision-making, and reporting.
- Supported partner MEAL system strengthening, including routine project review meetings and mentoring to ensure alignment with agreed Monitoring, Evaluation, and Reporting (MER) standards.
- Maintained up-to-date project results, indicators, and logical frameworks, supporting adaptive management and donor engagement.
- Contributed to donor proposal development, responding to Calls for Proposals with strong MEAL designs, indicators, baseline plans, and learning frameworks.
- Supported evidence-based WASH programming through integrated MEAL systems, ensuring alignment with sector standards and national priorities.
- Participated in WASH sector coordination mechanisms in fragile, conflict-affected, and climate-vulnerable contexts, contributing data and analysis to support continuity of services.
- Led establishment and monitoring of WASH Committees (WASHCOMs) as part of sustainability and governance tracking frameworks.
- Led knowledge management systems, ensuring effective documentation, data storage, access, and institutional learning across programmes.

- Led research, assessments, and evaluations for project across all implementation locations.
- Strengthened learning loops through routine analysis, reflection meetings, and dissemination of findings to technical and leadership teams.

3. MONITORING AND EVALUATION SPECIALIST, TARABA STATE (January 2021 – January 2022) Jesuit Refugee Service (JRS)

No 1 Tanko Tamti Street, Takum Field Office. Taraba State.

Project: Protection for Cameroonian Refugees; funded by UNHCR

PROJECT THEMATIC AREAS AND POPULATION

- Education in Emergencies and Protection (including GBV, Legal, and MHPSS support), Gender Mainstreaming, Sexual and Gender Based Violence (SGBV), Water and Sanitation Hygiene - WASH, Awareness Raising against GBV and irregular migrations (Counter-trafficking), Health, Reconciliation and Peace Building.
- Displaced Populations (IDPs and Returnees), Asylum seekers and Refugee Population affected by conflicts or armed violence, and Host Community members

KEY ACHIEVEMENTS:

- Initiated and held the annual stakeholders debriefing meeting to present project achievements.
- Led the maiden Cash Based Intervention for Cameroonian Refugees in Taraba State.
- Conducted Post-Distribution Monitoring exercises for routine distributions (food items, Non-Food Items, and Cash).
- Applied systems-thinking to identify and address institutional, financial, technical, and community-level barriers, leading to the redesign of WASH interventions for improved impact, access and scalability.
- Provided technical lead to the construction of boreholes across refugee hosting LGAs in Taraba State to improve access to potable water for the residents, reaching over 38,000 beneficiaries.
- Ensured the establishment and effective functionality of WASH Committees (WASHCOMs) across project locations, strengthening operation and maintenance systems, asset management, and local governance of WASH facilities.
- Initiated and held the routine project performance review meetings (semi-annual, and annual).
- Initiated and transitioned to virtual platforms the community-based border monitoring.
- Managed project implementation in the absence of the Project Director.
- Developed the annual work plan to guide project implementation.
- Developed new/reviewed existing data collection tools to aid effective project implementation.
- Engage with program units in planning meetings to ensure that programs are implemented in line with defined standards and Monitoring, Evaluation, and Reporting (MER) indicators.
- Provided feedback to the Project Director on progress made in project implementation by the Protection and Education units.
- Development of database, training of enumerators on the use of mobile data collection application software (open data kit) for routine assessment
- Development/collation and documentation of the project's Weekly, Monthly and Semi-Annual Performance Reports (SAPR).
- Preparation of PowerPoint presentations of JRS achievements for Partners Coordination Meetings
- Conducted in-depth primary and secondary research and analyses through a painstaking review of existing literature and Interviews including developing/managing databases.

- Development of data collection tools (DCT) for profiling and needs assessment of project beneficiaries.
- Managed the referral, uptake monitoring and data management on the access of medication/drugs for Cameroonian Refugees in Nigeria through the Drug Revolving Fund (DRF) methodology of UNHCR Health Partner in providing sustainable healthcare.
- Joint monitoring, data analysis and data use in collaboration with Taraba State Ministries of Health and Primary Health Care Development Agency (PHCDA) for improved referral systems.
- Carried out data validation, triangulation, and analysis for all routine surveys and assessments held out across all project locations.
- Held review meetings and validation of documentation with program units to review achievements and progress as well as draft routine implementation plans.
- Conducted capacity-building sessions for project staff and monitors on remote data collection methodologies using mobile devices.
- Supported in developing proposals based on available calls for proposals in alignment with the organization's thematic focus for all forcibly displaced persons.
- Served as Focal person for donor's Multi-Functional Team (MFT) data validation for program implementation across project locations.
- Attended quarterly partner coordination meetings.
- Coordinated planning meetings, effective implementation, and documentation for all distribution (food and non-food items) activities to project beneficiaries.
- Supported program units during advocacies to relevant Government MDAs and stakeholders.

4. ORGANIZATIONAL DEVELOPMENT SPECIALIST - *Consultant* (April - December 2020)
Children and Youth Emancipation Network (CYEN)
New Stadium Road - Uyo, Akwa Ibom State

KEY ACHIEVEMENTS:

- Reviewed and/or developed the organization's workplace policies.
- Development of Standard Operating Procedures (SOPs) and guidelines to guide project implementation.
- Capacity building on the project and data management procedures and protocols
- Development of technical and financial proposals in response to all Request for Proposals or Applications (RFP or RFA) for successful project awards
- Partnership management with Government representatives and line Ministries, Departments, and Agencies (MDAs) both at Federal and State levels.
- Visibility protocols and partnership coordination.

5. MONITORING AND EVALUATION OFFICER, AKWA IBOM STATE (June - December 2019)
Health Initiatives for Safety and Stability in Africa (HIFASS),
HIFASS State Office, Plot 104, Unit A, Lagos Street, Ewet Housing Estate, Uyo. Akwa Ibom State.
Project: Local OVC Partners in Nigeria, Region 3 (LOPIN 3); funded by USAID

PROJECT THEMATIC AREAS AND POPULATION

- Education (including Gril Child Education), Protection (including GBV and MHPSS support), Livelihoods (Entrepreneurship), Adolescent Sexual and Reproductive Health (ASRH), Human Immunodeficiency Virus (HIV), Gender Mainstreaming, Awareness Raising against GBV, Nutrition, and Health.

- Marginalised (Orphans and Vulnerable Children - OVC), Key (Children living with HIV/AIDS - CLHIV) and General Populations

KEY ACHIEVEMENTS:

- Ensured that programs were implemented in line with Monitoring, Evaluation, and Reporting (MER) indicators and regulations of the project.
- Updating of the organization's OVC data into PEPFAR/USAID online platforms
- Collection, collation, and management of the OVC database
- Supported the regional M&E team in capacity building/training of Case Managers, CBO, and Government partners.
- Development of the project's Quarterly, Semi-Annual, and Annual Progress Reports, presentations for USAID Deep Dive meetings, and infographics to update the data situation room.
- Supported the development of DCTs/tracking templates for routine project surveys.
- Partnership support: Manager of the Monitoring and Evaluation units in the CBOs/LGAs
- Served as focal person for donor's Site Improvement through Monitoring (SIMS) Assessment and Data Quality Assessment (DQA)
- Development of database, training of research assistants on GPS tracking, field support, and data management.
- Partnership support: Organised project's periodic Performance Review Meetings for implementing partners to identify gaps and inform re-strategized programmatic decisions, support shared learnings, and adapt best practices at all levels through internal capacity development or all partner organizations.
- Supported in developing proposals/activity profiles aligned with identified context needs/gaps in line with the organization's strategy.
- Undertook Periodic Supportive Supervisory visits/regular field monitoring at the CBO levels to check progress, identify gaps, provide hands-on mentoring, and ensure improved data collection, documentation, and reporting.
- Developed frameworks to implement and monitor/evaluate programs in the State.
- Developed correspondence, prepared, coordinated reviewed, edited, and disseminated all project-related reports/documents including presentations, factsheets, success stories, and advocacy briefs.
- Conducted in-depth primary and secondary research and analyses through a painstaking review of existing literature and Interviews including developing/managing databases.
- Partnership support: Provided technical guidance in strategies through supportive supervision and hands-on mentorship for improving the quality of data from health facilities and community (through the CBOs) and overall data dissemination and utilization at the project level.
- Contributed to the organization's OVC LOPIN 3 project factsheets and developed a factsheet for the organization's performance in the Akwa Ibom State SURGE response.
- Monitoring and Evaluation of CLHIV Case findings (tracking LTFU)/OVC service delivery for enrolled households identified under the Akwa Ibom State SURGE response in eight LGAs.
- Identification and enrollment of co-infected (HIV and Tuberculosis; HIV and Leprosy, Leprosy and Tuberculosis) patients from QIC Leprosy Hospital, Ekpene Obom, Etinan LGA
- Supported documentation and reporting of all GBV-related cases and ensured referral for service provision.
- Supported Index Case Testing (ICT) towards identification/enrollment of new HIV-positive cases.
- Supported in awareness creation/training on PEPFAR HIV indicators and provision of condoms to adolescents and youth through appropriate systems.

- Supported in the identification of malnourished OVC through MUAC/BMI assessments and further ensured linkage/provision of appropriate nutritional supplements for improved nourishment of the child and/or clinical referral for acute malnutrition cases.
- Partnership support: Supported the referral system officer in ensuring collaboration with CSO Network (CISHAN), and support groups (NEPHWAN, ASHWAN) and using them as expert clients to help in CLHIV case findings in the State.
- Joint monitoring, data analysis and data use in collaboration with Federal Ministry of Health and Akwa Ibom State Ministry of Health, Akwa Ibom State Primary Health Care Development Agency (AKSPHCDA), Akwa Ibom State Agency for the Control of HIV/AIDS (AK-SACA).
- Partnership support: Identification and linkages of children who are abused (including those branded witches), neglected, or exploited to Community Child Protection Committees (CPC) and State Ministry of Women Affairs and Child Development.
- Supported in strengthening partnership with the Akwa Ibom State Child Protection Network (CPN)
- Partnership support: Supported sub-grantee CBOs in identifying households for economic strengthening to ensure resiliency and stability.
- Supported in monitoring empowered households to ensure progress and economic stability.

6. MONITORING AND EVALUATION OFFICER, CROSS RIVER STATE (March 2018 – April 2019)
Calabar Archdiocesan Action Committee on AIDS (CAACA) – Consortium Partner,
Health Initiatives for Safety and Stability in Africa (HIFASS) – Cross River State Office,
 Plot 206, First Avenue; Off MCC Road, State Housing Estate, Calabar. Cross River State.
Project: Local OVC Partners in Nigeria, Region 3 (LOPIN 3); funded by USAID

PROJECT THEMATIC AREAS AND POPULATION

- Education (including Gril Child Education), Protection (including GBV and MHPSS support), Livelihoods (Entrepreneurship), Adolescent Sexual and Reproductive Health (ASRH), Human Immunodeficiency Virus (HIV), Gender Mainstreaming, Awareness Raising against GBV, Nutrition, and Health.
- Marginalised (Orphans and Vulnerable Children - OVC), Key (Children living with HIV/AIDS - CLHIV) and General Populations

KEY ACHIEVEMENTS:

- Supported the development of appropriate health financing policies through evidence-based project implementation for the vulnerable population through the **OVC plan of action, Cross River State – Nigeria**
- Through robust advocacy meetings and multi-sectoral engagement, led in the development of strategies, technical tools, and other key external documents (advocacy briefs, fact sheets) to inform decision-making for government, donors, and other stakeholders.
- Supported the development of the electronic data collection template using Kobocollect and deployment to Android devices for the CAPI GIS Mapping of the project's enrolled Positive households in Cross River and Ebonyi States
- Training non-specialists and researchers on mobile data collection software and GPS reading
- Supported the development of the data collection tools, data management, and analysis of the project's community-based operations research to check social and cultural determinants of enrolled OVCs' risk of new HIV infections, testing, and retention in treatment and care.
- **Domestic Resource Mobilization** to identify and collaborate with other partners to re-integrate OVCs back to school and provide them with tuition.

- Partnership support: Ensured partner development process through technical capacity building and monitoring, supported in designing work plans.
- Identifying vulnerable households for enrollment and assessment of most vulnerable enrolled households for Household Economic Strengthening (HES)
- Carry out routine Data Quality Assessment (DQA) to verify source to electronic data and ensure data quality at the CBO levels.
- Joint monitoring, data analysis and data use in collaboration with Federal Ministry of Health and Cross River State Ministry of Health, Cross River State Primary Health Care Development Agency (CRSPHCDA), Cross River State Agency for the Control of HIV/AIDS (CR-SACA).
- Provided leadership to research data collection and analysis for operations research and GIS mapping, outlined surveys/studies as well as baseline, mid-term, and impact evaluations.
- Participated in data review meetings at various State, regional, and National levels.
- Partnership support: Developed and implemented capacity-building plans for field projects by sub-grantee CBOs in data management including analysis, use, Visualization, and dissemination.
- Partnership support: Responsible for drafting correspondence, liaising with State Ministries, Departments, and Agencies (MDAs), and attending technical meetings on behalf of the organization.
- **Served as a member of** Cross River State Monitoring and Evaluation Technical Working Group.
- Serve as M&E focal person for the organization.

7. **MONITORING & EVALUATION/PROGRAMS MANAGER** (January 2016 – February 2018)
MONITORING & EVALUATION/PROGRAMS OFFICER (January 2013 - December 2015)
Budget Transparency and Accountability Initiative Nigeria (BTAN) – A Network of CSOs, CBOs, FBOs.
 No 5 Esighi Street, off Bateba Road, Amika Layout - Calabar. Cross River State.

Projects/Assessments managed and Funders:

- ✚ “iMarch4Children” campaign in Cross River State to End Violence Against Children (EndVAC) in partnership with Playback Nigeria funded by UNICEF.
- ✚ Health Policy Project to support Family Planning (FP) services/distribution of commodities funded by USAID through the Futures Group
- ✚ Voices for Compliance and Legality (VOCAL), JDPC Calabar in collaboration with CCFN and funded by the European Union (EU) with support from UNDP.
- ✚ Monitoring of Maternal and Newborn Child Health (MNCH) services funded by UNICEF through the Cross River State Ministry of International Development Cooperation
- ✚ Profiling Traditional Birth Attendants (TBA) role in the utilization of Maternal and Newborn Child Health (MNCH) services, funded by UNFPA and Cuso International
- ✚ Socio-Economic Assessment (Post-Implementation of FADAMA III Project) in Cross River State implemented by FETO, funded by the World Bank.
- ✚ Monitoring of Conditional Cash Transfer (CCT) to Vulnerable Households in Cross River State, funded by the World Bank

PROJECT THEMATIC AREAS AND POPULATION

- Good Governance, Financial Inclusion, Health Financing, Public Finance Management (including Procurement), Reproductive Health, Family Planning (FP), Adolescent Sexual and Reproductive Health (ASRH), Human Immunodeficiency Virus (HIV), Orphans, and Vulnerable Children (OVC), Water and Sanitation Hygiene (WaSH), Environment, Justice, Gender, Education, Youth

integration/empowerment, Agriculture, Migration, Disaster relief, humanitarian, and Conflict Resolution.

- Key (Children and adults living with HIV/AIDS) and General Populations

KEY ACHIEVEMENTS:

- Effective administration of the secretariat, including documentation and ensuring financial compliance of member organizations.
- Worked closely with members and partner organizations to implement projects.
- Partnership support: Provided **Project management, coordination, research as well as monitoring and evaluation leadership to oversee the progress of all projects** implemented by the partner organization to ensure associated deliverables and results/outputs and outcomes.
- Anchored all levels of **technical deliberations and communication to provide project implementation support to project technical staff and provide overall backstopping and leadership for the progress of project implementation.**
- Provided **programming, Monitoring & Evaluation, and implementation support to 41 multi-sectoral NGOs/CBOs/FBOs member organizations for program and project implementation.**
- Research and operations manager to track deliverables across projects and ensure effective implementation of project activities in line with key performance indicators.
- Initiated and supported the dissemination of project results via presentations and reports including factsheets and success stories.
- **Proposal development: Technical and Financial**
- **Support to develop, monitor, and oversee the implementation of the organizational annual work plans, budgets, and M & E plans.**
- **Data Quality Assessments (DQAs), data management, and report writing from surveys, assessments, and research.**
- **Supervise and coordinate qualitative and quantitative data collection (including focus group discussions, key informant interviews, surveys, and assessments)**
- Hosting the **Sustainable Development Goals (SDGs) Policy dialogue** in Cross River State
- **State Budget analysis and presentations to the budget committee**, Cross River State House of Assembly to identify unique budget line duplications in various MDAs.
- Co-facilitated as implementing partner in Cross River State, the **“iMarch4Children” campaign** in partnership with **Playback Nigeria Initiative** and support from **UNICEF** during the **nationwide art-based embodied march** held during 2016 Children’s Day as action to **End Violence against Children (EndVAC)** in Nigeria.
- **Simplifying the Cross River State Budget and producing a citizen’s budget** for easy understanding of the multiple pages Appropriation bill.
- Joint monitoring, data analysis and data use in collaboration with Cross River State Ministry of Health, Cross River State Primary Health Care Development Agency (CRSPHCDA), Cross River State Agency for the Control of HIV/AIDS (CR-SACA).
- Advocacy/supported meetings concerning drafting, finalizing, and operationalizing the Cross River State Health Insurance Scheme adapted from the National Health Insurance Scheme (NHIS) supported by the **Health Finance and Governance Project** funded by **USAID**.
- **Member**, Cross River State Domestic Resource Mobilization Technical Working Group (DRM TWG) to raise funds for **HIV/AIDS interventions** under the **Health Finance and Governance Project**.
- **Member**, Cross River State Family Planning Advocacy Working Group.

- **Member of the technical team** for the published Cross River State Costed Implementation Plan (CIP) for Family Planning (2017 – 2020)
8. **MONITORING & EVALUATION/DATA MANAGER** (March 2012 – December 2012)
Integrated Data Solutions and Development Research Support Systems (IDSDRSS)
 3 Mayne Avenue Street, Calabar, Cross River State.

Projects:

- ✚ **Post-campaign survey on the distribution of LLIN in Nasarawa and Cross River States**
- ✚ **Post-implementation survey on the construction of rural roads and provision of WASH services**

PROJECT THEMATIC AREAS AND POPULATION

- Good Governance (Infrastructure and WaSH) and Public Health
- General Populations

KEY ACHIEVEMENTS:

- **Development of data collection tools and database for data entry**
- **Database management (Data entry, validation, analysis) and Data Quality Audits (DQAs)**
- **Management of Research/surveys**
- **Data entry (Epidata software), and analysis (SPSS) for the Post-Campaign Net Survey by JOHNS HOPKINS BLOOMBERG SCHOOL OF PUBLIC HEALTH** following the distribution of Long-lasting Insecticide Treated Nets - LLIN in Cross River and Nasarawa States, Nigeria.
- **Researcher, Data entry (Epidata software), analysis (SPSS) and report development** on the assessment carried out to ascertain the level of infrastructural/social services development between 2007 and 2011 across the Local Government Areas in Cross River State by Rural Development Agency (RUDA). **JDPC, Calabar Archdiocese, published report.**

9. **DATA ENTRY/ANALYSIS OFFICER** (January 2011 – February 2012)
Budget Transparency and Accountability Initiative – Nigeria (BTAN) in consortium with Community Information Empowerment and Transparency (CIET)
 CIET lodge, Opposite Dukes and Dukes, State Housing Estate, Calabar, Cross River State.
Project: Socializing Evidence for Participatory Action (SEPA) Phase 1 and 2; funded by CIDA

PROJECT THEMATIC AREAS AND POPULATION

- Public Health and Primary Healthcare System Strengthening
- Children and Pregnant women.

KEY ACHIEVEMENTS

- Development of **code sheets** for field responses
- **Coding and transcription of qualitative to quantitative responses**
- **Data entry (Epiinfo) of the 2011 BTAN/CIET health survey aimed at reducing maternal mortality rate across the three senatorial districts of Cross River State** with Yala, Abi and Calabar South as pilot LGAs
- **Data entry (Epiinfo software) and support data analysis (SPSS) for the health survey aimed at integrated management of childhood illnesses (IMCI) to reduce infant mortality in Cross River State**
- **Data analysis for informed programming**

CONSULTANCY ROLES

Geophysical Survey and Exploitation of Groundwater, Akwa Ibom State.

Role(s): Research, Monitoring & Evaluation, Borehole Drilling and Completion, Technical Support.

Responsibilities:

- Conduct geophysical surveys to identify and assess groundwater potential.
- Supervise borehole drilling operations, ensuring safety and technical accuracy.
- Oversee borehole completion, testing, and development to guarantee reliable water yield.
- Monitor and evaluate groundwater projects, providing data-driven insights and reports.
- Collect, analyse, and map hydrogeological data to support planning and decision-making.
- Provide technical guidance and support to field teams and stakeholders.
- Ensure compliance with environmental, health, and safety standards.

Surveys and Assessment

Role(s): Research, Monitoring & Evaluation, Data Management, and Operations Manager

Responsibilities: Development of Data Collection Tools (DCTs), database programming, research, Data Entry (Epidata, CSPro, Kobocollect), Data Cleaning and validation, Statistical analysis (SPSS) and Report Development.
