PROFILE

A results-driven international humanitarian and development professional with over 14 years of progressive experience leading large-scale, multi-partner, donor-funded programmes across Nigeria. Demonstrates a strong track record in programme and project management, Climate-Smart Agriculture, and WASH, complemented by deep expertise in Monitoring, Evaluation, Accountability, Research, and Learning (MEARL). Skilled in data quality assurance, assessment, and auditing, with proven ability to design and manage databases for survey management, real-time data analytics, and infographic reporting. Brings extensive experience working with migrants, displaced persons, trafficking survivors, marginalised populations, and conflict-affected communities, applying context-sensitive and people-centred approaches to programme delivery. Adept at both qualitative and quantitative analysis, with strong proficiency in translating complex data into actionable insights and professional-grade reports that meet the standards of leading INGOs and international development organisations.

A strategic thinker and effective communicator with excellent interpersonal skills, recognised for building cohesive, high-performing teams and fostering cross-functional collaboration. Committed to organisational growth, institutional learning, and delivering measurable impact in humanitarian and development contexts.

SKILLS

- Proficient in **database programming** using **Epi data**, **Epi info**, and **CSPRO**.
- Proficient in the use of **Open Data Kit (ODK)** including (**CSEntry**, **Commcare**, **Kobocollect**).
- High-level proficiency in the use of **Microsoft Office 365 suite** (**Outlook**, **Excel**, **PowerPoint**, **Word**, **Access**) and **Microsoft Teams**
- Proficient in **data management (analysis, validation, triangulation)** and **data visualization tools**.
- Experienced in the use of **NVivo** and **SPSS** for **qualitative and quantitative data mining and analysis**.
- Experienced in the use of **ArcGIS Software** for **Geospatial Analysis**.
- Proficient in **programs and project management**
- **Proficient in remote hands-on mentoring**.
- **Experienced in the design of web-based assessments for training/performance appraisals**.

RELEVANT WORKING EXPERIENCE

1. **COUNTRY DEPUTY HEAD OF PROGRAMS/MEAL TEAM LEAD** (January 2024 - Date)
Jesuit Refugee Service (JRS) - Nigeria
No 13 Al'Fayyum Street, Zone 3, Wuse. FCT - Abuja.
Donors: EU/ECHO, UNHCR, GIZ, The Basque Government, Bibliothèques Sans Frontières, Development and Peace - Caritas Canada, Latter Day Saints and Charities, Manos Unidas, Irish Jesuit International/Misean Cara, CEI, JRS-USA, ALBOAN MIEZA, GHR Foundation

PROJECT THEMATIC AREAS AND POPULATION

- Education in Emergencies (including Girl Child Education), Natural Resource Management (Water and Sanitation Hygiene – WASH), Food Security and Livelihoods - FSL (Entrepreneurship and Climate-Smart Agriculture), Conflict resolution, Reconciliation and Peace-Building, Conflict Resolution, Women Economic Empowerment, Gender and Gender Mainstreaming, Protection (including GBV, Legal, and MHPSS support), Conflict Related Sexual Violence (CRSV), Sexual and Gender Based Violence (SGBV), Awareness Raising against GBV and irregular migrations (Counter-trafficking).
- Displaced Populations (IDPs and Returnees), Asylum seekers and Refugee Population (Migrated) affected by conflicts or armed violence, Trafficked Returnee Population, and Host Community

KEY ACHIEVEMENTS

Leadership and Programme Management

- Provided leadership and oversight to all project implementation across field offices in Nigeria, working with project directors, technical unit heads/team leaders, and programme leaders to ensure effective and efficient programme delivery.
- Led monthly programme unit/project director meetings to ensure improved coordination and timely delivery of project milestones and outputs.
- Coordinated the development of programme/project costed workplans in alignment with budgets, KPIs, and results frameworks.
- Led project inception/start-up meetings, providing programme/project insight and onboarding guidance for all engaged staff.
- Oversaw the organisation's programme portfolio, including development of project tools, operational expense approvals, and grants management.
- Served as safeguarding focal point for programmes/projects across all field implementation locations.
- Ensured compliance of staff with travel and movement security procedures, routinely managing and updating the programme risk register and taking corrective actions as required.

Financial Management & Compliance

- Led financial oversight for the programme, ensuring efficient, transparent, and accountable use of resources in compliance with organisational and donor standards.
- Oversaw budget planning, financial tracking, and forecasting across all programme components and partners, ensuring alignment with approved workplans and adherence to budget limits.
- Collaborated with the national finance team to maintain accurate budgets, forecasts, and cost control across all programme activities.
- Provided accountability and managed donor-contractual, consultant, and vendor contractual relationships in line with organisational and compliance standards.

Business Development & Donor Engagement

- Developed and implemented the country-level business development strategy in alignment with JRS's global priorities and funding targets, ensuring a healthy and diversified funding pipeline.
- Identified and pursued new business opportunities across key thematic areas, supporting the country business development pipeline and pre-positioning to strengthen organisational competitiveness.
- Documented lessons learned from won and lost proposals to continuously improve bid quality and win rates.

- Cultivated and maintained strategic relationships with bilateral, multilateral, and private donors, positioning JRS as a partner of choice, and tracked donor funding cycles, priorities, and calls for proposals to ensure timely and informed engagement.
- Experienced in grants management and proposal development in response to requests and calls for proposals.
- Supported consortium formation and positioning for large and strategic funding opportunities, ensuring proposals were technically sound, donor-compliant, competitive, and submitted on time.
- Provided mentorship and technical oversight to programme teams during proposal development, ensuring increased access, improved implementation quality, and compliance with global standards.

WASH Programming & Technical Leadership

- Successfully led WASH programming in rural, semi-urban, and urban settings, improving access to safe water and sanitation for over 20,000 school and community beneficiaries across Monguno and Dikwa LGAs of Borno State within emergency/humanitarian and development contexts.
- Served as technical lead for the design and construction of sustainable water supply systems including routine boreholes, solarised schemes, and hand-pump boreholes, achieving over 85% functionality across completed infrastructure.
- Served as technical lead for the rehabilitation of non-functional water infrastructures across Northeast (Borno, Adamawa, Taraba), North Central (Abuja), and Northwest (Zamfara) regions of Nigeria.
- Participated in comprehensive WASH assessments covering water safety, functionality, water quality (physicochemical and bacteriological), geophysical survey, and feasibility, contributing to risk-informed WASH plans in climate-vulnerable communities across Northeast, Northwest, Northcentral, and South-South Nigeria.
- Applied systems-thinking to map institutional, financial, technical, and community-level bottlenecks, informing the redesign of WASH interventions for greater impact and scalability.
- Operationalised market-based and systems-strengthening approaches, increasing access to affordable WASH products and services through local entrepreneurs within project locations.
- Ensured functionality of sanitation facilities and effective hygiene promotion for beneficiaries in schools and communities, including advisory on improved water quality through treatment and storage procedures.
- Led Multi-Sectoral Needs Assessments (MSNA) and Rapid Needs Assessments (RNA), integrating WASH–Health–Education models linking infrastructure, behaviour change, and institutional strengthening, resulting in measurable improvements in health outcomes and school attendance.

Research, Knowledge Management & Learning

- Served as Technical and Research Lead on the impact of oil contamination in Okoro Utip and Eteo Communities, Rivers and Akwa Ibom States. https://devp.org/wp-content/uploads/2025/11/Report_Oil_contamination_Nigeria.pdf
- Led knowledge management, ensuring effective documentation, storage, and access to information for all team members.
- Led the development of Data Collection Tools (DCTs) with appropriate methodological approaches, including Rapid, Thematic, and Multisectoral Needs Assessments.
- Facilitated lessons learned workshops and routine project review meetings with programme units to identify implementation gaps and provide improved strategic programmatic direction.

- Led project evaluations (Baseline and Midline) and developed Terms of Reference and guidance for independent external endline evaluations.
- Led Data Quality Assessments/Auditing (DQA) and Programme Quality Assurance (PQA) across all project implementation sites to ensure compliance with standard guidelines.
- Led CRSV and SGBV data management, with a particular focus on adolescents and young people.

Monitoring, Evaluation & Reporting

- Developed evidence-based routine project implementation reports (monthly, quarterly, semi-annual, and annual) for all projects in line with donor requirements.
- Enhanced service delivery through the adoption of real-time monitoring tools (CommCare, KoboCollect), improving decision-making and accountability across project locations.
- Led the development and support of results-based management systems across all programmes and projects.
- Developed and regularly updated risk analysis and management frameworks for all projects and locations, including monitoring of early warning systems.

Partnerships, Stakeholder Engagement & Advocacy

- Built strong partnerships with government agencies, INGOs, national NGOs, community structures, and private sector actors, resulting in improved coordination and resource sharing.
- Facilitated multi-level stakeholder dialogues through Context Analysis (Key Informant Interviews and Focus Group Discussions) resulting in improved governance frameworks and clearer stakeholder roles.
- Led collaboration with the communication and advocacy unit to improve programme visibility through routine publications and strategic communications.
- Provided guidance on beneficiary targeting, eligibility criteria, and selection processes during project inception and stakeholder onboarding, informed by pre-assessments and recommendations.

Peacebuilding, Gender & Social Inclusion

- Led strategy and collaboration for peacebuilding efforts in violence-prone and affected communities through Women's Economic Empowerment and Gender Equality, using Climate-Resilient Agriculture initiatives and community engagement in Northern Nigeria.
- Led reconciliation and livelihood research for farmer-herder conflict-affected communities in Northeast Nigeria to support peacebuilding initiatives and programming.

Economic Growth & Livelihoods

- Managed economic growth programmes across Nigeria in thematic areas including agriculture development, public infrastructure, women's economic empowerment, inclusive financial systems (Cash-Based Interventions, Conditional Cash Transfers, financial inclusion, VSLA/SILC), and education through livelihoods support.

Procurement, Contracting & Vendor Management

- Led the tender committee for the review of submissions by contractors and vendors for the delivery of goods and services across all project implementation sites.
- Developed Terms of Reference (ToR) for the engagement and contracting of external consultants and contractors and facilitated review and interview sessions.
- Reviewed and approved Terms of Reference for conducting and implementing project deliverables, ensuring alignment with organisational and donor standards.

Capacity Strengthening

- Provided guidance and capacity strengthening for field office staff to ensure improved project implementation strategies, professional development, and adherence to global standards.

- 2. COUNTRY MONITORING AND EVALUATION SPECIALIST (February 2022 – December 2023)**
Jesuit Refugee Service (JRS) - Nigeria
No 13 Al'Fayyum Street, Zone 3, Wuse. FCT - Abuja.
Donors: EU/ECHO, BPRM, UNHCR, LDS, Caritas Canada, Basque Government, Global Solidarity Fund, Misesan Cara – IJM, CEI, JRS-USA, MIEZA - ALBOAN, JM-UK, GHR Foundation

PROJECT THEMATIC AREAS AND POPULATION

- Education in Emergencies (including Girl Child Education), Conflict resolution, Reconciliation and Peace-Building, Conflict Resolution, Natural Resource Management (Water and Sanitation Hygiene – WASH), Livelihoods (Entrepreneurship and Climate-Smart Agriculture), Gender and Gender Mainstreaming, Protection (including GBV, Legal, and MHPSS support), Conflict Related Sexual Violence (CRSV), Sexual and Gender Based Violence (SGBV), Health and Awareness Raising against GBV and irregular migrations (Counter-trafficking).
- Displaced Populations (IDPs and Returnees), Asylum seekers and Refugee Population (Migrated) affected by conflicts or armed violence, Trafficked Returnee Population, and Host Community

KEY ACHIEVEMENTS

MEAL Systems Design & Implementation

- Led the design, implementation, and oversight of Monitoring, Evaluation, Accountability, and Learning (MEAL) systems across multi-sector humanitarian and development programmes.
- Developed and operationalised results frameworks, including logframes, theories of change, KPIs, outcome and impact indicators, proxy indicators, and measurement methodologies aligned with donor requirements.
- Designed and rolled out project and organisational MEAL tools, including MEAL Guides, M&E Plans, Indicator Performance Tracking Tools (IPTTs), and reporting dashboards.
- Maintained up-to-date project results, indicators, and logical frameworks, supporting adaptive management and donor engagement.
- Reviewed and quality-assured all data collection tools, evaluation products, and project design and inception documents to ensure methodological rigour and consistency.

Data Quality, Management & Assurance

- Designed and implemented Data Quality Assessment (DQA) frameworks, conducting routine data validation, verification, and audits to ensure data integrity and compliance with donor standards.
- Provided technical leadership and oversight to M&E staff and field teams, including database management, data quality assurance, and performance monitoring across implementation sites.
- Conducted routine spot monitoring and assessment missions across Adamawa, Borno, Zamfara, and Taraba States to validate data, assess implementation quality, and support adaptive management.
- Led knowledge management systems, ensuring effective documentation, data storage, access, and institutional learning across all programmes.

Evaluations, Research & Assessments

- Led and facilitated baseline, midline, and endline evaluations, including development of Terms of Reference, management of external evaluators, and synthesis of findings into donor-ready evaluation reports.
- Led research, assessments, and evaluations across all project implementation locations, ensuring findings were evidence-based, rigorous, and actionable.

- Strengthened learning loops through routine analysis, reflection meetings, and dissemination of findings to technical and leadership teams.
- Led accountability and learning processes, ensuring the systematic use of evidence to inform programme adaptation, decision-making, and reporting.

Peacebuilding, Gender & Social Cohesion

- Led MEAL-informed strategy and cross-sector collaboration for peacebuilding programmes in violence-affected communities, integrating women's economic empowerment, gender equality, climate-resilient agriculture, and community engagement across Northern Nigeria.
- Designed and applied MEAL frameworks and indicators to support peacebuilding programmes, strengthening learning, accountability, and adaptive programming in conflict-affected communities.

Capacity Strengthening & Partner Support

- Led MEAL capacity strengthening, developing capacity-building plans and delivering training for staff, partners, and stakeholders on MEL systems, data collection, and results-based management.
- Supported partner MEAL system strengthening, including routine project review meetings and mentoring to ensure alignment with agreed Monitoring, Evaluation, and Reporting (MER) standards.

WASH MEAL & Sector Coordination

- Supported evidence-based WASH programming through integrated MEAL systems, ensuring alignment with sector standards and national priorities.
- Participated in WASH sector coordination mechanisms in fragile, conflict-affected, and climate-vulnerable contexts, contributing data and analysis to support continuity of services.
- Led the establishment and monitoring of WASH Committees (WASHCOMs) as part of sustainability and governance tracking frameworks.

Business Development & Proposal Support

- Contributed to donor proposal development, responding to Calls for Proposals with strong MEAL designs, indicators, baseline plans, and learning frameworks.

3. MONITORING AND EVALUATION SPECIALIST, TARABA STATE (January 2021 – January 2022) **Jesuit Refugee Service (JRS)**

No 1 Tanko Tamti Street, Takum Field Office. Taraba State.

Project: Protection for Cameroonian Refugees; funded by UNHCR

PROJECT THEMATIC AREAS AND POPULATION

- Education in Emergencies and Protection (including GBV, Legal, and MHPSS support), Gender Mainstreaming, Sexual and Gender Based Violence (SGBV), Water and Sanitation Hygiene - WASH, Awareness Raising against GBV and irregular migrations (Counter-trafficking), Health, Reconciliation and Peace Building.
- Displaced Populations (IDPs and Returnees), Asylum seekers and Refugee Population affected by conflicts or armed violence, and Host Community members

KEY ACHIEVEMENTS:

Monitoring, Evaluation & Learning

- Developed new and reviewed existing data collection tools to support effective project implementation and ensure data quality across all locations.
- Developed Data Collection Tools (DCTs) for profiling and needs assessment of project beneficiaries.

- Carried out data validation, triangulation, and analysis for all routine surveys and assessments across project locations.
- Served as focal person for the donor's Multi-Functional Team (MFT) data validation for programme implementation across project locations.
- Conducted Post-Distribution Monitoring exercises for routine distributions of food items, Non-Food Items, and cash.
- Initiated and held the annual stakeholders debriefing meeting to present project achievements and foster accountability.
- Prepared PowerPoint presentations of JRS achievements for partner coordination meetings.

Data Management & Reporting

- Developed databases and trained enumerators on the use of mobile data collection application software (Open Data Kit) for routine assessments.
- Conducted in-depth primary and secondary research and analyses through review of existing literature and interviews, including developing and managing databases.
- Developed, collated, and documented the project's weekly, monthly, and semi-annual performance reports (SAPR).
- Managed referral, uptake monitoring, and data management on access to medication and drugs for Cameroonian Refugees in Nigeria through the Drug Revolving Fund (DRF) methodology of the UNHCR Health Partner, supporting sustainable healthcare delivery.
- Conducted joint monitoring, data analysis, and data use in collaboration with Taraba State Ministries of Health and the Primary Health Care Development Agency (PHCDA) to improve referral systems.

Programme Management & Coordination

- Managed project implementation in the absence of the Project Director, ensuring continuity of programme delivery across all project locations.
- Developed annual workplans to guide project implementation, ensuring alignment with donor requirements, KPIs, and results frameworks.
- Initiated and held routine project performance review meetings (semi-annual and annual) to assess progress, address implementation gaps, and strengthen programmatic direction.
- Engaged with programme units in planning meetings to ensure implementation in line with defined standards and Monitoring, Evaluation, and Reporting (MER) indicators.
- Held review meetings and validation sessions with programme units to assess achievements, review progress, and draft routine implementation plans.
- Coordinated planning meetings, effective implementation, and documentation for all food and non-food item distribution activities to project beneficiaries.
- Provided feedback to the Project Director on progress made in project implementation by the Protection and Education units.

WASH Programming & Technical Leadership

- Applied systems-thinking to identify and address institutional, financial, technical, and community-level barriers, leading to the redesign of WASH interventions for improved impact, access, and scalability.
- Ensured the establishment and effective functionality of WASH Committees (WASHCOMs) across project locations, strengthening operation and maintenance systems, asset management, and local governance of WASH facilities.
- Provided technical lead for the construction of boreholes across refugee-hosting LGAs in Taraba State, improving access to potable water for over 38,000 beneficiaries.

Cash-Based Interventions & Humanitarian Response

- Led the maiden Cash-Based Intervention for Cameroonian Refugees in Taraba State, establishing a foundational model for subsequent programming.
- Initiated and transitioned community-based border monitoring to virtual platforms, improving efficiency and reach of protection monitoring activities.

Shelter Support

- Conducted needs assessment for refugees and host communities in need of shelter support
- Provided technical oversight for constructed shelters for displaced populations (Cameroonian Refugees) in line with UNHCR standards.

Capacity Strengthening

- Conducted capacity-building sessions for project staff and monitors on remote data collection methodologies using mobile devices, improving data quality and field-level accountability.

Stakeholder Engagement, Partnerships & Advocacy

- Attended quarterly partner coordination meetings, contributing programme data and updates to support sector-wide coordination and learning.
- Supported programme units during advocacy engagements with relevant Government Ministries, Departments, and Agencies (MDAs) and other stakeholders.

Business Development

- Supported the development of proposals in response to available calls for proposals, aligned with the organisation's thematic focus for all forcibly displaced persons.

4. BUSINESS DEVELOPMENT SPECIALIST - *Consultant* (April - December 2020) Children and Youth Emancipation Network (CYEN) New Stadium Road - Uyo, Akwa Ibom State

KEY ACHIEVEMENTS:

- Developed and implemented the business development strategy aligned with CYEN's strategic priorities and funding targets.
- Identified and pursued new funding opportunities across key thematic areas, contributing to a strong and diversified funding pipeline.
- Strengthened the business development pipeline and pre-positioning efforts to enhance organizational competitiveness in donor-funded opportunities.
- Cultivated and maintained strategic partnerships with bilateral, multilateral, and private donors, positioning CYEN as a preferred implementation partner.
- Monitored donor funding cycles, priorities, and calls for proposals to ensure timely and strategic engagement.
- Led the development of technical and financial proposals in response to Requests for Proposals (RFPs) and Requests for Applications (RFAs), contributing to successful project awards.
- Ensured proposals were technically sound, donor-compliant, competitive, and submitted within deadlines, while documenting lessons learned from successful and unsuccessful bids to improve proposal quality and win rates.
- Reviewed and developed organizational workplace policies, Standard Operating Procedures (SOPs), and operational guidelines to strengthen institutional systems and project implementation.
- Delivered capacity building for staff and partners on project management, data management procedures, and operational protocols.
- Managed partnerships with government stakeholders and line Ministries, Departments, and

Agencies (MDAs) at both Federal and State levels.

- Coordinated project visibility protocols, stakeholder engagement, and partnership coordination to enhance program impact and institutional profile.
- 5. MONITORING AND EVALUATION OFFICER, AKWA IBOM STATE** (June - December 2019)
Health Initiatives for Safety and Stability in Africa (HIFASS),
HIFASS State Office, Plot 104, Unit A, Lagos Street, Ewet Housing Estate, Uyo. Akwa Ibom State.
Project: Local OVC Partners in Nigeria, Region 3 (LOPIN 3); funded by USAID

PROJECT THEMATIC AREAS AND POPULATION

- Education (including Girl Child Education), Protection (including GBV and MHPSS support), Livelihoods (Entrepreneurship), Adolescent Sexual and Reproductive Health (ASRH), Human Immunodeficiency Virus (HIV), Gender Mainstreaming, Awareness Raising against GBV, Nutrition, and Health.
- Marginalised (Orphans and Vulnerable Children - OVC), Key (Children living with HIV/AIDS - CLHIV) and General Populations

KEY ACHIEVEMENTS:

Monitoring, Evaluation & Reporting

- Ensured programmes were implemented in line with Monitoring, Evaluation, and Reporting (MER) indicators and project regulations, maintaining compliance with donor standards throughout implementation.
- Developed frameworks to implement, monitor, and evaluate programmes at the state level, ensuring alignment with organisational strategy and donor requirements.
- Served as focal person for the donor's Site Improvement through Monitoring (SIMS) Assessment and Data Quality Assessment (DQA), ensuring data integrity and compliance across all implementation sites.
- Conducted periodic supportive supervisory visits and regular field monitoring at CBO levels to check progress, identify gaps, provide hands-on mentoring, and ensure improved data collection, documentation, and reporting.
- Conducted joint monitoring, data analysis, and data use in collaboration with the Federal Ministry of Health, Akwa Ibom State Ministry of Health, Akwa Ibom State Primary Health Care Development Agency (AKSPHCDA), and Akwa Ibom State Agency for the Control of HIV/AIDS (AK-SACA).
- Monitored and evaluated CLHIV case findings (tracking Loss to Follow-Up) and OVC service delivery for enrolled households identified under the Akwa Ibom State SURGE response across eight LGAs.

Data Management & Reporting

- Collected, collated, and managed the OVC database, ensuring accurate and timely updating of organisational OVC data into PEPFAR/USAID online platforms.
- Developed databases and trained research assistants on GPS tracking, field support, and data management to strengthen data collection and quality assurance.
- Developed and supported Data Collection Tools (DCTs) and tracking templates for routine project surveys, ensuring methodological consistency across implementation sites.
- Conducted in-depth primary and secondary research and analyses through review of existing literature and interviews, including developing and managing databases.
- Developed the project's quarterly, semi-annual, and annual progress reports, presentations for USAID Deep Dive meetings, and infographics to update the data situation room.

- Developed correspondence, prepared, coordinated, reviewed, edited, and disseminated all project-related reports and documents, including presentations, factsheets, success stories, and advocacy briefs.
- Contributed to the organisation's OVC LOPIN 3 project factsheets and developed a factsheet documenting organisational performance in the Akwa Ibom State SURGE response.

HIV/AIDS, OVC & Health Programming

- Supported Index Case Testing (ICT) towards the identification and enrolment of new HIV-positive cases, contributing to improved case detection and programme coverage.
- Identified and enrolled co-infected patients (HIV and Tuberculosis; HIV and Leprosy; Leprosy and Tuberculosis) from QIC Leprosy Hospital, Ekpene Obom, Etinan LGA.
- Supported awareness creation and training on PEPFAR HIV indicators and provision of condoms to adolescents and youth through appropriate systems.
- Supported the referral system officer in ensuring collaboration with CSO Network (CISHAN) and support groups (NEPHWAN, ASHWAN), utilising expert clients to support CLHIV case findings in the state.
- Supported documentation and reporting of all GBV-related cases and ensured referral for service provision.
- Identified malnourished OVCs through MUAC/BMI assessments and ensured linkage and provision of appropriate nutritional supplements, including clinical referral for acute malnutrition cases.

Child Protection & Social Welfare

- Identified and linked children who were abused (including those branded as witches), neglected, or exploited to Community Child Protection Committees (CPC) and the State Ministry of Women Affairs and Child Development.
- Supported the strengthening of partnership with the Akwa Ibom State Child Protection Network (CPN) to improve coordination and protection outcomes for vulnerable children.

Economic Strengthening & Household Resilience

- Supported sub-grantee CBOs in identifying households for economic strengthening interventions to ensure resilience and stability.
- Monitored empowered households to track progress and ensure sustained economic stability across project locations.

Capacity Strengthening

- Supported the regional M&E team in capacity building and training of Case Managers, CBO staff, and government partners to strengthen data management and reporting at all levels.
- Provided technical guidance through supportive supervision and hands-on mentorship to improve the quality of data from health facilities and communities, and to strengthen overall data dissemination and utilisation at the project level.
- Organised periodic performance review meetings for implementing partners to identify gaps, inform re-strategised programmatic decisions, support shared learning, and adapt best practices through internal capacity development across all partner organisations.

Stakeholder Engagement & Partnership Support

- Managed the Monitoring and Evaluation units of CBOs and LGAs as part of partnership support, ensuring aligned implementation and reporting across all levels.
- Collaborated with government agencies and partner organisations to strengthen referral systems, coordination mechanisms, and service delivery for OVCs and vulnerable populations.

Business Development

- Supported the development of proposals and activity profiles aligned with identified contextual needs and gaps, in line with the organisation's strategic thematic focus.

6. **MONITORING AND EVALUATION OFFICER, CROSS RIVER STATE** (March 2018 – April 2019)
Calabar Archdiocesan Action Committee on AIDS (CAACA) – Consortium Partner,
Health Initiatives for Safety and Stability in Africa (HIFASS) – Cross River State Office,
Plot 206, First Avenue; Off MCC Road, State Housing Estate, Calabar. Cross River State.
Project: Local OVC Partners in Nigeria, Region 3 (LOPIN 3); funded by USAID

PROJECT THEMATIC AREAS AND POPULATION

- Education (including Girl Child Education), Protection (including GBV and MHPSS support), Livelihoods (Entrepreneurship), Adolescent Sexual and Reproductive Health (ASRH), Human Immunodeficiency Virus (HIV), Gender Mainstreaming, Awareness Raising against GBV, Nutrition, and Health.
- Marginalised (Orphans and Vulnerable Children - OVC), Key (Children living with HIV/AIDS - CLHIV) and General Populations

KEY ACHIEVEMENTS:

Monitoring, Evaluation & Data Quality

- Served as M&E Focal Person for the organisation, providing technical leadership and coordination across all monitoring, evaluation, and reporting functions.
- Served as a member of the Cross River State Monitoring and Evaluation Technical Working Group, contributing technical expertise to state-level M&E coordination and decision-making.
- Carried out routine Data Quality Assessments (DQA) to verify source-to-electronic data accuracy and ensure data quality at the CBO level.
- Participated in data review meetings at state, regional, and national levels, contributing findings and analysis to inform programmatic decisions.
- Provided leadership for research data collection and analysis for operations research and GIS mapping, including outlined surveys, studies, baseline, mid-term, and impact evaluations.
- Conducted joint monitoring, data analysis, and data use in collaboration with the Federal Ministry of Health, Cross River State Ministry of Health, Cross River State Primary Health Care Development Agency (CRSPHCDA), and Cross River State Agency for the Control of HIV/AIDS (CR-SACA).

Data Management, Technology & Research

- Supported the development of electronic data collection templates using KoboCollect and deployed them to Android devices for CAPI GIS Mapping of enrolled positive households across Cross River and Ebonyi States.
- Supported the development of data collection tools, data management, and analysis for the project's community-based operations research, examining social and cultural determinants of enrolled OVCs' risk of new HIV infections, testing, and retention in treatment and care.
- Trained non-specialists and researchers on mobile data collection software and GPS reading, strengthening field-level data collection capacity.

Policy, Advocacy & Stakeholder Engagement

- Supported the development of appropriate health financing policies through evidence-based project implementation for vulnerable populations, including through the OVC Plan of Action in Cross River State, Nigeria.
- Led the development of strategies, technical tools, and key external documents (advocacy briefs and factsheets) through robust advocacy meetings and multi-sectoral engagement, to inform decision-making for government, donors, and other stakeholders.
- Responsible for drafting correspondence, liaising with State Ministries, Departments, and Agencies (MDAs), and attending technical meetings on behalf of the organisation.

OVC and Household Economic Strengthening

- Identified vulnerable households for enrolment and conducted assessments of the most vulnerable enrolled households for Household Economic Strengthening (HES) interventions.
- Led domestic resource mobilisation efforts, identifying and collaborating with partners to re-integrate OVCs back into school and provide tuition support.

Capacity Strengthening & Partnership Support

- Developed and implemented capacity-building plans for field projects by sub-grantee CBOs, covering data management, analysis, visualisation, and dissemination.
- Ensured partner development through technical capacity building, monitoring, and support in designing workplans aligned with programme objectives.

7. MONITORING & EVALUATION/PROGRAMS MANAGER (January 2016 – February 2018) MONITORING & EVALUATION/PROGRAMS OFFICER (January 2013 - December 2015) Budget Transparency and Accountability Initiative Nigeria (BTAN) – A Network of CSOs, CBOs, FBOs.

No 5 Esighi Street, off Bateba Road, Amika Layout - Calabar. Cross River State.

Projects/Assessments managed and Funders:

- ✚ “iMarch4Children” campaign in Cross River State to End Violence Against Children (EndVAC) in partnership with Playback Nigeria funded by UNICEF.
- ✚ Health Policy Project to support Family Planning (FP) services/distribution of commodities funded by USAID through the Futures Group
- ✚ Voices for Compliance and Legality (VOCAL), JDPC Calabar in collaboration with CCFN and funded by the European Union (EU) with support from UNDP.
- ✚ Monitoring of Maternal and Newborn Child Health (MNCH) services funded by UNICEF through the Cross River State Ministry of International Development Cooperation
- ✚ Profiling Traditional Birth Attendants (TBA) role in the utilization of Maternal and Newborn Child Health (MNCH) services, funded by UNFPA and Cuso International
- ✚ Socio-Economic Assessment (Post-Implementation of FADAMA III Project) in Cross River State implemented by FETO, funded by the World Bank.
- ✚ Monitoring of Conditional Cash Transfer (CCT) to Vulnerable Households in Cross River State, funded by the World Bank

PROJECT THEMATIC AREAS AND POPULATION

- Good Governance, Financial Inclusion, Health Financing, Public Finance Management (including Procurement), Reproductive Health, Family Planning (FP), Adolescent Sexual and Reproductive Health (ASRH), Human Immunodeficiency Virus (HIV), Orphans, and Vulnerable Children (OVC), Water and Sanitation Hygiene (WaSH), Environment, Justice, Gender, Education, Youth integration/empowerment, Agriculture, Migration, Disaster relief, humanitarian, and Conflict Resolution.
- Key (Children and adults living with HIV/AIDS) and General Populations

KEY ACHIEVEMENTS:

Leadership, Coordination & Secretariat Management

- Effectively administered the secretariat, including documentation, financial compliance oversight of member organisations, and coordination of all levels of technical deliberations and communication to provide project implementation support.
- Anchored all levels of technical deliberations and communication, providing overall

backstopping and leadership for the progress of project implementation across member and partner organisations.

- Served as Research and Operations Manager, tracking deliverables across projects and ensuring effective implementation of project activities in line with key performance indicators.
- Provided programming, Monitoring & Evaluation, and implementation support to 41 multi-sectoral NGOs, CBOs, and FBO member organisations for programme and project implementation.
- Worked closely with members and partner organisations to implement projects, ensuring alignment with agreed objectives, standards, and donor requirements.

Programme Management & Implementation

- Provided project management, coordination, research, and monitoring and evaluation leadership to oversee the progress of all projects implemented by partner organisations, ensuring delivery of associated outputs and outcomes.
- Supported the development, monitoring, and oversight of organisational annual workplans, budgets, and M&E plans to guide effective programme implementation.
- Initiated and supported the dissemination of project results through presentations, reports, factsheets, and success stories to promote learning and visibility.

Monitoring, Evaluation & Data Management

- Conducted Data Quality Assessments (DQAs), data management, and report writing from surveys, assessments, and research across member and partner organisations.
- Supervised and coordinated qualitative and quantitative data collection, including Focus Group Discussions, Key Informant Interviews, surveys, and assessments.
- Conducted joint monitoring, data analysis, and data use in collaboration with the Cross River State Ministry of Health, Cross River State Primary Health Care Development Agency (CRSPHCDA), and Cross River State Agency for the Control of HIV/AIDS (CR-SACA).

Policy, Advocacy & Government Engagement

- Hosted the Sustainable Development Goals (SDGs) Policy Dialogue in Cross River State, facilitating multi-stakeholder engagement on development priorities and accountability.
- Conducted state budget analysis and delivered presentations to the Budget Committee of the Cross River State House of Assembly, identifying unique budget line duplications across various MDAs.
- Served as observer for Public Procurement for the Federal and State Ministries, Departments and Agencies in Cross River State
- Simplified the Cross River State Budget and produced a citizen's budget to improve public understanding of the appropriation bill.
- Supported advocacy meetings towards the drafting, finalisation, and operationalisation of the Cross River State Health Insurance Scheme, adapted from the National Health Insurance Scheme (NHIS) and supported by the USAID-funded Health Finance and Governance Project.
- Co-facilitated as an implementing partner in Cross River State for the "iMarch4Children" campaign in partnership with Playback Nigeria Initiative and UNICEF, as part of the nationwide art-based embodied march held during 2016 Children's Day to end violence against children (EndVAC) in Nigeria.

Domestic Resource Mobilisation & Health Financing

- Served as a member of the Cross River State Domestic Resource Mobilisation Technical Working Group (DRM TWG), contributing to efforts to raise funds for HIV/AIDS interventions under the Health Finance and Governance Project.
- Served as a member of the Cross River State Family Planning Advocacy Working Group, supporting coordinated advocacy for improved family planning policies and resources.

- Served as a member of the technical team for the published Cross River State Costed Implementation Plan (CIP) for Family Planning (2017–2020), contributing to evidence-based planning and resource allocation.

Business Development

- Led technical and financial proposal development in response to funding opportunities, ensuring alignment with organisational strategy and donor priorities.

8. MONITORING & EVALUATION/DATA MANAGER (March 2012 – December 2012) **Integrated Data Solutions and Development Research Support Systems (IDSDRSS)** 3 Mayne Avenue Street, Calabar, Cross River State.

Projects:

- ✚ **Post-campaign survey on the distribution of LLIN in Nasarawa and Cross River States**
- ✚ **Post-implementation survey on the construction of rural roads and provision of WASH services**

PROJECT THEMATIC AREAS AND POPULATION

- Good Governance (Infrastructure and WaSH) and Public Health
- General Populations

KEY ACHIEVEMENTS:

Data Management & Quality Assurance

- Developed data collection tools and databases for data entry, ensuring robust systems for accurate and efficient data management across research and survey activities.
- Managed databases across the full data cycle, including data entry, validation, analysis, and Data Quality Audits (DQAs), to maintain data integrity and compliance with research standards.

Research, Surveys & Data Analysis

- Managed research and surveys, providing technical oversight across all phases of data collection, processing, and reporting.
- Conducted data entry using EpiData software and analysis using SPSS for the Post-Campaign Net Survey commissioned by Johns Hopkins Bloomberg School of Public Health, following the distribution of Long-Lasting Insecticide-Treated Nets (LLINs) across Cross River and Nasarawa States, Nigeria.
- Served as Researcher, conducting data entry (EpiData), analysis (SPSS), and report development for an assessment commissioned by the Rural Development Agency (RUDA) to ascertain the level of infrastructural and social services development between 2007 and 2011 across Local Government Areas in Cross River State — published by JDPC, Calabar Archdiocese.

9. DATA ENTRY/ANALYSIS OFFICER (January 2011 – February 2012) **Budget Transparency and Accountability Initiative – Nigeria (BTAN) in consortium with Community Information Empowerment and Transparency (CIET)** CIET lodge, Opposite Dukes and Dukes, State Housing Estate, Calabar, Cross River State. **Project: Socializing Evidence for Participatory Action (SEPA) Phase 1 and 2; funded by CIDA**

PROJECT THEMATIC AREAS AND POPULATION

- Public Health and Primary Healthcare System Strengthening
- Children and Pregnant women.

KEY ACHIEVEMENTS

Data Management & Processing

- Developed code sheets for field responses and conducted coding and transcription of qualitative to quantitative data, ensuring methodological consistency and accuracy in data processing.
- Conducted data entry using EpiInfo software for the 2011 BTAN/CIET health survey aimed at reducing maternal mortality rates across the three senatorial districts of Cross River State, with Yala, Abi, and Calabar South as pilot LGAs.
- Conducted data entry (EpiInfo) and supported data analysis (SPSS) for a health survey on the Integrated Management of Childhood Illnesses (IMCI), aimed at reducing infant mortality in Cross River State.

Data Analysis & Evidence-Based Programming

- Conducted data analysis to generate actionable insights and evidence for informed programming, supporting strategic decision-making and improved programme outcomes.

CONSULTANCY ROLES

Geophysical Survey and Exploitation of Groundwater, Akwa Ibom State.

Role(s): Research, Monitoring & Evaluation, Borehole Drilling and Completion, Technical Support.

Responsibilities:

- Conduct geophysical surveys to identify and assess groundwater potential.
- Supervise borehole drilling operations, ensuring safety and technical accuracy.
- Oversee borehole completion, testing, and development to guarantee reliable water yield.
- Monitor and evaluate groundwater projects, providing data-driven insights and reports.
- Collect, analyse, and map hydrogeological data to support planning and decision-making.
- Provide technical guidance and support to field teams and stakeholders.
- Ensure compliance with environmental, health, and safety standards.

Surveys and Assessment

Role(s): Research, Monitoring & Evaluation, Data Management, and Operations Manager

Responsibilities: Development of Data Collection Tools (DCTs), database programming, research, Data Entry (Epidata, CSPro, Kobocollect), Data Cleaning and validation, Statistical analysis (SPSS) and Report Development.

- Achieving HIV targets of 90-90-90/95-95-95 in Nigeria, what are the roles of community-based health workers? A case study of selected Local Government Areas in Akwa Ibom and Cross River States - Nigeria, **January - March 2020.**
